

# SUBJECT INDEX TO VOLUME 11

JANUARY—JUNE, 1952

References are to page numbers. An asterisk denotes title and reference only

- Aberdeen granite workers, silicosis in, 144
- Abernethy, John (1764-1831) and operative surgery, 304\*
- Abortion, medico-legal significance of death after, 140
- Abscess, pulmonary, antibiotic therapy, 372
- , tuberculous, at site of intramuscular penicillin injection in children, 200
- Acclimatization, effect on circulatory responses to hot environments, 216
- of groups to heat and humidity, assessment, 215
- response of rats to discontinuous exposure to high altitudes, 216
- to altitude, blood volume in dog during, 216
- Acetoxypregnenolone in rheumatoid arthritis, 82
- N-Acetyl-4-aminoantipyrine in measurement of total body water, 19
- Acetylcholine, influence on development of central inhibition, 218
- Acetyl- $\beta$ -methylcholine chloride, see "Mecholyl"
- N-Acetylsalicylamide, metabolism and urinary elimination in normal man, 311
- Acidosis, chronic, in infants due to renal tubular deficiency, association with nephrocalcinosis, 47
- , rarity with Kimmelstiel-Wilson lesions in, 52
- , renal hyperchloraemic, in adult, 373
- Acne, history of, 110
- vulgaris, serum lipids in, 180
- Acrosclerosis, aetiology and clinical report, 181
- ACTH, see Corticotrophin
- "Actidione" in *Cryptococcus neoformans* meningitis, 90
- Adamantinoma, clinical and pathological findings in, 129
- Addison, Thomas, and background to cortisone, 399
- Addison's disease and Cushing's syndrome, comparison of psychopathology, 384
- , mechanism of water retention in, 68
- with polyarthritis, 172
- Adenoma, androgenic, of adrenal gland, 274
- Adolescence in boys, physical changes associated with, 148
- , outbreak of acute nephritis in, 171
- Adrenal cortex activity, effect of chronic administration of adrenaline on, 71
- , relation to bronchial asthma, 49
- carcinoma in children, 48
- , foetal, anaplastic cells in, 129
- function in chronic schizophrenia, 190
- , relation to scurvy in guinea-pigs, 126
- in rheumatic disease, effects of corticotrophin and cortisone on, 329
- , influence of intrathecal adrenaline on, 175
- morphology after corticotrophin and cortisone administration, 172
- Adrenal cortex stimulation, splenic arterio-venous differences in blood cells during reaction to, 374
- disease, mixed, in infants, 48
- gland, adrenaline and noradrenaline concentration at different ages and in disease, 176
- , androgenic adenoma of, 274
- , presacral perirenal pneumography of, 45
- research, history of, 399
- , retropneumoperitoneum in study of, 348
- Adrenalectomy, effect on susceptibility of mice to virus infections, 374
- , subtotal, in hypertension, 265, 367
- Adrenaline action, effect of dibenzazepine compounds on, 8
- , on cardiac output, comparison with noradrenaline, 8
- and noradrenaline, comparison of actions on kidney, 217
- concentration in adrenals at different ages and in disease, 176
- "cream" massage in fibrositis, 119
- , effect of chronic administration on adrenal cortical activity in man, 71
- , on blood pressure regulation, 114
- , carbohydrate metabolism and hepatic blood flow, 315
- , renal haemodynamics, 373
- , intrathecal, influence on adrenal cortex, 175
- , peripheral vascular effects after injection into isolated perfused central nervous system, 114
- Adrenocorticotrophin, see Corticotrophin
- Aerosols, high-pressure insecticidal action against house-fly compared, 12
- Age, maternal, in familial mongolism, 211
- Agglutination of sensitized erythrocytes by antiglobulin sera, differences in, 333
- inhibition test for virus influenza, preparation of dried antigen and antiserum for, 29
- Agglutinin, anti-S, new example of, 371
- Agranulocytosis, aplastic anaemia, and acute leucopenic leucosis, differential diagnosis, 266
- Air flow, respiratory, mechanics in health and emphysema, 170
- Alcohol in blood and urine, tests in cases of "driving under the influence", 241
- "Aldrin" poisoning in man, 238
- Allergic disorders, corticotrophin treatment, urinary excretion of 11-oxy corticosteroids during, 355
- Allergy, dermal and respiratory manifestations in children, 353
- , histamine excretion and formation in faeces in, 255
- reaction to tannic acid, 255
- , relation to urological disease, 255
- Allergy to lycopodium, 353
- Allylisopropylacetylurea purpura, role of complement in, 166
- Alopecia areata, oral cortisone treatment, 377
- Altitude acclimatization, blood volume in dog during, 216
- , high, acclimatization response of rats to discontinuous exposure to, 216
- Alumina cream, intracerebral injections, chronic epilepsy in monkey after, 289
- Aluminium dust, effect on susceptibility to pneumonia, 14
- Amethocaine, intravenous, mode of action, 121
- A-methopterin in leukaemia in adults, 269
- children, 269
- Amino-acids, faecal excretion in infants, 147
- , parenteral nutrition with, 2
- p-Aminobenzoic acid and cortisone, synergistic action in rheumatoid arthritis, 81
- p-Aminobenzoylglutamic acid, activity in experimental macrocytic anaemia, 326
- Aminophylline with mercurial diuretics in congestive heart failure, 160
- Aminopterin, effect on epithelial tissue, 377
- in leukaemia in adults, 269
- children, 269
- , pathogenesis of sprue in rats and, 126
- p-Aminosalicilic acid, calciferol, and streptomycin in pulmonary tuberculosis, 101
- , effect on streptomycin resistance in tuberculosis, 198
- , liquorice extract and, in tuberculosis, serum potassium deficiency during, 104
- , streptomycin and, in bone and joint tuberculosis, 302
- with thiosemicarbazone in pulmonary tuberculosis, 102
- Amoebiasis, hepatic, chloroquine treatment, 203, 204
- Amoebicides, chemical, *in vitro* tests of, 9
- DL-Amphetamine sulphate, effect on intestinal motility, 118
- Anaemia and oesophageal erosion, bile and pancreatic juice in production of, 17
- , aplastic, acute leucopenic leucosis and agranulocytosis, differential diagnosis, 266
- due to oesophagitis, 17
- , erythroblastic, new form in Tropics, 63
- , experimental macrocytic, activity of xanthopterin and p-aminobenzoylglutamic acid in, 326
- , haemolytic acquired, corticotrophin treatment, 266
- , intestinal macrocytic, 368
- , macrocytic, in Africans in Uganda, 64
- , megaloblastic, folic acid therapy, 368
- , in pregnancy, remission after treatment, 368
- , nutritional megaloblastic, manifestations in monkeys, 13
- Anaemia of central nervous system, physiological analysis of relation of changes in blood pressure to, 309
- scurvy, 368
- , pernicious, development of neurological symptoms during vitamin therapy, 64
- , haemosiderosis of liver in, 64
- , in Africans in Uganda, 64
- , intravenous folic acid therapy, 166
- , thrombopoiesis in, 267
- , sickle-cell, in children, corticotrophin and cortisone treatment, 62
- Anastomosis, carotid-jugular, effect on intelligence, 293
- Anatomy, 1, 210-11
- morbid, 22-4, 128-9, 228-31, 329-30
- Aneurysm, dissecting, of coronary arteries, 229
- , intracranial, and polycystic disease of kidneys, aetiology and interrelationship, 273
- , intradural arterio-venous, 287
- Angina of effort in cardiac infarction, 162
- pectoris in euthyroid patients, radioactive iodine treatment, 59
- , radiological appearance of pituitary fossa in, 60
- Angiocardiography, foreign body in heart located by, 44
- , selective visualization in, 145
- Angiography, cerebral, contrast media in, electroencephalographic and histopathological correlation, 344
- , experimental evaluation, 345
- , in demonstration of spasm of intracranial arteries, 344
- , hepatic, technique, 243
- Angioplethysmography to measure response of blood vessels to various stimuli, 314
- Angiopneumography in diagnosis and assessment of operability of carcinoma of bronchus, 345
- Angiopulmography, technique, 248
- Anopheles claviger, DDT toxicity to, 12
- Anoxia, see Oxygen deficiency
- Antibiosis from Pasteur to Fleming, 208\*
- Antibiotic(s), antithyrototoxic effects in rats, 10
- , circulin, in intestinal infections, 10
- , continued use in sino-respiratory infections, 270
- , cross-resistance of bacteria to, 221
- , effect on normal intestinal flora, 10
- , "ehrlichin", laboratory tests of, 320
- in bacterial endocarditis, effect on heart, 156
- Klebsiella pneumonia, 66
- , roseomycin, effect on Brucella tularensis, 10
- synergism and antagonism, 121
- therapy, steatorrhoea after, 10

- Antibodies, multiple, demonstration in antglobulin sera, 333
- Antibody, antitissue, zone of localization determined by radioactive tracers, 29
- , valency of, 29
- Anticoagulant(s), 4-hydroxydicoumarin No. 63, clinical evaluation, 7
- in acute coronary thrombosis, 59
- — congestive heart failure, 56
- — prevention of impending cardiac infarction, 162
- Antigen, dried, for agglutination-inhibition test for virus influenza, preparation, 29
- injection, multiple, spleen and haemolysin production in rabbits after, 133
- Antihistamine drugs, *see* Histamine antagonists
- Antiserum against mammary tumour agent, "cytotoxic" properties, 124
- for agglutination-inhibition test for virus influenza, preparation, 29
- Antithrombin in plasma, effect of heparin and "paritol-C" on, 7
- —, patterns in pancreatic diseases, 327
- titre in cystic fibrosis of pancreas, 21
- Antommarchi, Francesco, anatomist and Napoleon I's last physician, 397
- Anuria, intestinal lavage with hypertonic potassium-free solution in, 272
- Anxiety neurosis, hexamethonium bromide, in 386
- Aorta, abdominal, insidious thrombosis of, 163
- coarctation, dye dilution and direct intra-arterial pressure recording methods in study of haemodynamics in, 762
- , dissecting aneurysm, and damage to vasa vasorum, relation between, 23
- in diabetes mellitus, 23
- Aortitis, syphilitic, penicillin treatment, 183
- Aortography, abdominal, in renal tuberculosis, 251
- , direct and retrograde, 346
- , retrograde, after catheterization of femoral artery and aorta, 251
- , translumbar serial, medium and technique, 146
- Appendicitis, early historical aspects, 207
- Appetite and satiety feelings, influence of tannic acid on, 114
- Arrhythmia, auricular fibrillation and flutter, quinidine treatment, 264
- , —, quinidine treatment, 57
- , cardiac, adrenaline-induced, during anaesthesia, influence of dihydroergotamine methanesulphonate on, 313
- , chronic auricular, quinidine treatment, 363
- , gallop, in hypertension, clinical significance, 157
- , procaine amide in, 57
- , prolonged, in cardiac venous catheterization, 261
- , tachycardia, digitalis-induced ventricular, effect of procaine amide on, 5
- Arsenic compounds and carcinoma in metallurgical workers, 36
- Arteries, aberrant renal, and hypertension, 264
- Arteries, basilar, thrombosis of, 287
- , bronchial, in bronchiectasis and in experimental ligation of pulmonary artery, 14
- , carotid, angiographic diagnosis of spontaneous thrombosis of, 344
- catheterization in man, 145
- , cerebral, electroencephalogram in thrombosis of, 189
- , coronary, *see* Coronary
- , hepatic, effect of ligation in dogs, 324
- obstruction, resting blood flow and blood pressure in limbs with, 55
- , pulmonary, embolism of, *see* Embolism
- , —, reaction to emboli of filter-paper fibres, 125
- , —, — minute fragments of blood clot, 125
- , —, visible pulsation in relation to blood flow and pressure in, 155
- , response to stimuli, angioplethysmography in study of, 314
- spasm, intracranial, angiographic demonstration, 344
- Arteriography in bone diseases, 146
- , percutaneous vertebral, 248
- , post-mortem, in "normal" lower limbs, 260
- Arteriosclerosis after bilateral nephrectomy, 15
- Arteriosclerosis, calcification of vas deferens in relation to, 252
- , pulmonary, experimental production, 324
- Arteritis in experimental hyperadrenalism, 14
- , temporal, fatal case of, 260
- , thromboembolic pulmonary, and vascular sclerosis, experimental production, 324
- Arthralgia, periodic, genetics of, 78
- Arthritis, *see also* Osteoarthritis; Polyarthritis
- , experimental, influence of unilateral nephrectomy on production of, 224
- , mutilans, review and case reports, 388
- , periarticular oxygen saturation levels in, 82
- , rheumatoid, adrenocorticotrophin and cortisone treatment, haematological changes with, 381
- , —, and Sjögren's disease, 82
- , —, "artisona" acetate in, 81
- , —, carotid-sinus denervation in, 82
- , —, copper treatment, 186
- , —, cortisone treatment, problems of prolonged administration, 381
- , —, effect on bleeding-time of extract of blood from patients with, 381
- , —, electrophoretic analysis of blood serum after cortisone treatment, 80
- , —, 3-hydroxy-2-phenylcinchoninic acid in, 378
- , —, in children, 45
- , —, monarticular trauma and onset of, 185
- , —, nitrogen mustard therapy, 283
- , —, oral cortisone in, 81
- , —, pregnenolone treatment, 382
- , —, pulmonary tuberculosis after cortisone treatment, 81
- , —, serial vasography of periarticular vessels in, 82
- Arthritis, rheumatoid, short-term effect of vasopressin in, 382
- , —, splenectomy in, 186
- , —, spontaneous rupture of extensor pollicis longus tendon in, 82
- , —, steroid therapy, 82
- , —, synergistic, action of *p*-aminobenzoic acid and cortisone in, 81
- , —, with rheumatoid nodules of eye, cortisone therapy, 80
- , Speranskii spinal pumping treatment of, 380
- Arsenic, radioactive, in Hodgkin's disease, 370
- , —, — mycosis fungoides, 370
- "Artisona" acetate in rheumatoid arthritis, 81
- Ascariasis, hetrazan treatment, 192
- Ascaris* larva in brain in association with acute anterior poliomyelitis, 128
- Asclis in liver cirrhosis, renal function as factor in, 258
- — disease, effect of vasopressin on renal excretion of water and electrolytes in, 154
- Ascorbic acid content of vegetable stew, effect of open and pressure cooking on, 2
- , influence on development of tuberculosis, 104
- status of British Army, relation to gingivitis and scurvy-like conditions, 152
- "Asterol" in tinea capitis, 180
- Asthma, neurocirculatory, constitutional and psychological causes, 291
- , life situations, emotions and, 291
- Asthma, bronchial, intravenous corticotrophin therapy, 354
- , —, nitrogen mustard therapy, 354
- , —, oxygen therapy, potential dangers, 49
- , —, pulmonary function in, 50
- , —, relation of adrenal cortical activity to, 49
- , —, — spastic bronchitis in childhood to, 47
- , —, subcutaneous implantation of pellets of isoprenaline in, 354
- , —, topical application of cortisone in, 255
- , bronchography in, 43
- , chronic bronchial, oral cortisone therapy, 354
- , corticotrophin treatment, 355
- , cortisone orally and by injection in, 355
- , hospital and ambulatory treatment with corticotrophin and cortisone, 355
- , *in vitro* reaction of lungs and bronchi to allergens, 130
- , non-infective allergic, statistical study, 353
- Astrocytoma, cerebellar, 85
- "Atabrine", *see* Quinidine
- Ataxia due to degeneration of posterior root ganglia, 289
- , hereditary, 211
- , —, clinical, pathological, and genetic features, 307
- Atelectasis, common minor form of, 65
- of healthy lobe in pneumothorax therapy, 395
- Atherosclerosis, blood lipids and, 223
- , experimental macrophage migration in, 124
- , stabilization of blood cholesterol and, 124
- Atropine, effect of prolonged administration on submaxillary gland of cat, 219
- , — on gastric secretory response to food, 117
- , oral, effect on gastric response to insulin in duodenal ulcer, 127
- Aureomycin, action on *Rickettsiae in vitro*, 192
- antagonist to penicillin in pneumococcal meningitis, 98
- — streptomycin, 121
- , continued use in sino-respiratory infections, 270
- , effect on *Bact. coli in vitro*, 221
- , fixed drug eruption from, 11
- in bacterial pneumonia, 168
- clinical pneumonia, 169
- diphtheria and diphtheria carriers, 394
- experimental acute pancreatitis, 322
- gonorrhoea in male, 77
- herpes zoster, 92, 391
- infectious mononucleosis, 194
- *Klebsiella pneumoniae*, 66
- leptospirosis, 202
- non-specific urethritis in male, 282
- pertussis, 196, 394
- pneumococcal pneumonia, 169
- rabies due to fixed virus, 298
- recurrent aphthous stomatitis, 53
- smallpox, 32, 192, 193
- tick-borne fever, 201
- ointment in tropical ulcer, 184
- , oral, in neurosyphilis, 281
- treatment, ano-rectal complications, 319
- , —, steatorrhoea after, 10
- Automatism, motor speech disturbances with, 84
- "Avertin" narcosis, effect of mepyramine on, 317
- Ayerza's syndrome after pregnancy and with cryoglobulinaemia, 365
- "Ayfinin", *see* Bacitracin
- Azo dye in commercial petrol, contact dermatitis from, 179
- Bacitracin A, B, and C, nephrotoxic properties, 122
- , continued use in sino-respiratory infections, 270
- in chronic bacillary dysentery, 97
- Bacteria, cross-resistance to antibiotics, 221
- growth, influence of brain tissue extracts on, 232
- Bacterial infections, 96-8, 195-6, 299-300, 392-4
- Bacteriology, 25-9, 130-4, 232-4, 331-4
- Bacterium coli* and reactivity of host in pathogenesis of septic toxicosis in newborn, 25
- , effect of aureomycin on, 221
- , —, — terramycin on, 221
- Baillarger, Jules-Gabriel-François, and his discovery of the six layers of the cerebral cortex, 110
- BAL, effect on lead metabolism and on symptoms of lead poisoning, 36
- , — Wilson's disease, 383
- Baldness, oral cortisone treatment, 377
- "Banthine", clinical evaluation in gastroenterology, 311
- , effect on gastric secretory response to food, 117

- "Banthine" in gastro-intestinal disorders, 118  
 Barber-surgeons, history, 304\*  
 Barbiturate(s), effect on central nervous system, 316  
 —, —, gastric motility, 311  
 —, —, poisoning, electrocardiogram in, 39  
 Bathing in sea in antiquity, 208\*  
 B.C.G. mass vaccination in a British Colony, 235  
 —, —, vaccination, hyaluronidase in, 105  
 —, —, in newborn, 28  
 —, —, rural area of Ireland, 30  
 —, —, Singapore, 31  
 Bell's palsy: aetiology, clinical course, and treatment, 86  
 —, —, pathology, 289  
 "Benadryl" to prevent seasickness, 49  
 Bence-Jones, Henry, 1813-1873, biography, 400\*  
 Benzaldehyde thiocetazone, inhibition of vaccinia virus growth in mice by, 318  
 Benzyl salicylate, intramuscular, in fibrositis, 80  
 Beriberi heart disease simulating arteriosclerotic heart disease, 260  
 Bernard, Claude (1813-1878), biography, 206  
 Beryllium poisoning, current concepts, 337  
 Betaine and glycochamine in cardiac decompensation, 161  
 —, —, congestive heart failure, 161  
 —, —, treatment, biochemical basis, 161  
 Bile and production of oesophageal erosion and anaemia, 17  
 —, —, duct(s), congenital atresia, with erythroblastosis foetalis, 150  
 —, —, intrahepatic, atresia of, 147  
 —, —, obstruction, incomplete, serial determinations of serum alkaline phosphatase in, 227  
 —, —, fractions from gall-bladder and liver, test for recognition during biliary drainage, 127  
 —, —, tract disease, diabetes mellitus and, 256  
 —, —, systematic serial radiography of, 347  
 Bilharziasis, *see* Schistosomiasis  
**Biochemistry**, 2-4, 212-16, 308-310  
 Biopsy, aspiration, of kidney, 24  
 Blankets, woollen, sterilization of, 336  
 Blindness in sarcoidosis, cortisone treatment, 204  
 Blood, alcohol content in cases of "driving under the influence", 241  
 —, —, carbon monoxide in, *in vitro* formation and disposal, 212  
 —, —, cells, *see* Erythrocytes; Leucocytes  
 —, —, cholesterol, stabilization in prevention of atherosclerosis, 124  
 —, —, cholinesterase levels after exposure to organo-phosphorus insecticides, 37  
 —, —, —, of healthy adults and range of personal variation, 37  
 —, —, circulation, *see* Circulation  
 —, —, clot fragments, reaction of pulmonary artery to, 125  
 —, —, coagulation defect caused by dicoumarol, platelets and, 218  
 —, —, prothrombin conversion factors in, 309  
 —, —, time, effect of extract of blood from patients with rheumatoid arthritis on, 381  
 Blood coagulation time, effect of heparin and "paritol-C" on, 7  
 —, —, disorders, 61-4, 166, 266-9, 368-71  
 —, —, dyscrasia, erythrocyte and plasma cholinesterase activity in, 327  
 —, —, effect of corticotrophin and cortisone on, 61  
 —, —, flow, resting, in limbs with arterial obstruction, 55  
 —, —, groups, Rh antibodies, anti-E, frequency of occurrence, 370  
 —, —, —, persistence in serum of sensitized persons, 62  
 —, —, —, antibody titre, effect of Rh-positive pregnancies on, 241  
 —, —, —, factor, medico-legal significance in paternity cases, 241  
 —, —, —, Mendelian inheritance of, 241  
 —, —, —, hapten in Rh-positive bloods, 228  
 —, —, —, histamine, chemical determination, 50  
 —, —, —, level in myelogenous leukaemia, 61  
 —, —, —, in urine, chemical tests for, 20  
 —, —, —, lipids and human atherosclerosis, 223  
 —, —, —, occult, reagents for detection in faeces, 20  
 —, —, —, peripheral, level of 17-hydroxycorticosteroids in, 71  
 —, —, —, physico-chemical changes in physical and emotional stress in normal and hypertensive subjects, 88  
 —, —, —, plasma antithrombin level, effect of heparin and "paritol-C" on, 7  
 —, —, —, coagulation *in vitro*, effect of dilution on, 115  
 —, —, —, insulin in diabetes mellitus, 256  
 —, —, —, protein synthesis, 212  
 —, —, —, platelets: separation, concentration, and transfusion, 371  
 —, —, —, pressure, arterial, in normal and hypertensive dogs, effect of veratramine acetate on, 312  
 —, —, —, changes, physiological analysis of relation to anaemia of central nervous system, 309  
 —, —, —, control in surgical operations, intravenous L-noradrenaline in, 119  
 —, —, —, determination by sphygmomanometers, recommendation for, 164  
 —, —, —, direct measurement in components in circle of Willis, 383  
 —, —, —, effect of drugs causing muscular paralysis on, 5  
 —, —, —, —, prolonged high sodium chloride ingestion and withdrawal on, 15  
 —, —, —, —, regulation by hexamethonium bromide, plethysmographic and ballistocardiographic study, 313  
 —, —, —, —, influence of drugs on, 114  
 —, —, —, response to painful stimuli, 213  
 —, —, —, protein precipitation by alcohol in carcinoma diagnosis, 21  
 —, —, —, serum complement concentration in glomerulonephritis, 272  
 —, —, —, diastase and lipase response after administration of methacholine and secretin as pancreatic stimulants, 327  
 Blood serum, horse, effect of cortisone on vascular reactions to, 69  
 —, —, —, —, repeated injections on circulation, 69  
 —, —, —, —, in cortisone-treated rheumatoid arthritis, electrophoretic analysis, 80  
 —, —, —, —, iron content in polycythaemia vera, 266  
 —, —, —, lipids in acne vulgaris, 180  
 —, —, —, stains, separation by capillary action, 241  
 —, —, —, sugar level, effect of body cooling on, 214  
 —, —, —, transfusion, intra-arterial, for shock after myocardial infarction, 365  
 —, —, —, of haemophilic plasma into normal subjects, 267  
 —, —, —, trypanosomiasis after, 296  
 —, —, —, vessels, histology in surgically resected tuberculous lungs, 230  
 —, —, —, periarticular, in rheumatoid arthritis, serial vasography of, 82  
 —, —, —, spasm of, 163  
 —, —, —, volume in dog during altitude acclimatization, 216  
 —, —, —, pulmonary, relation to heart volume and filling rate of left ventricle, 213  
 Boeck's sarcoid, *see* Sarcoidosis  
 Boiler scalers, pneumoconiosis in, 237  
 Bone development, abnormalities associated with non-endocrine disorders, 148  
 —, —, diseases, arteriography in, 146  
 —, —, marrow in Hodgkin's disease, effect of cortisone on, 268  
 —, —, —, water-soluble fraction, rheumatism treated with, 79  
 —, —, —, medulla, effect of parathyroid extract on, 177  
 —, —, —, resorption, parathyroid hormone action on, 113  
 —, —, —, subperiosteal, manifestation of primary hyperparathyroidism and renal osteodystrophy, 146  
 —, —, —, tumours, multinucleated giant cells in, 128  
 Bones, long, morphological patterns of deficiencies or duplications of, 307  
 Bornholm disease in North Amsterdam, 92  
*Borrelia duttonii* infection of tick, course and mode of transmission, 201  
 Brain, *see also* Angiography, cerebral; Electroencephalogram  
 —, —, and gastro-duodenal lesions coexistent in children, 128  
 —, —, *Ascaris* larva in, in association with anterior poliomyelitis, 128  
 —, —, atrophy, encephalography in, 343  
 —, —, cerebellum, astrocytoma of, 85  
 —, —, cortex, auditory, representations of two ears at, 116  
 —, —, —, discovery of six layers by Baillarger, 110  
 —, —, —, representation of visceral sensation in, 116  
 —, —, —, supplementary motor area of, clinical and experimental study, 4  
 —, —, —, infarction without thrombosis, 228  
 —, —, —, intradural arterio-venous aneurysm, 287  
 —, —, —, lesions in congenital heart disease, 128  
 —, —, —, localization doctrine, methods and main results, 304\*  
 —, —, —, manifestations of acute myocardial infarction, 364  
 —, —, —, rheumatism of, 378  
 Brain sclerosis, progressive, with primary degeneration of interfascicular oligodendroglia, 85  
 —, —, stem injury, electrocardiography in, 362  
 —, —, —, vascularization of, 287  
 —, —, —, study and psychological speculations in Ancient Greece, 397  
 —, —, subtentorial gumma of, case reports, 86

- Testis biopsy in differential diagnosis of precocious puberty, 172
- , seminoma, irradiation after semicastration, 246
- , tumours, radiotherapy, 246
- Testosterone cyclopentylpropionate, clinical comparison with testosterone propionate, 68
- , in rheumatoid arthritis, 82
- , intravenous, effect on nitrogen and electrolyte metabolism, 274
- , —, role of liver and kidneys in metabolism of, 70
- Tetany, chronic, epilepsy after, 288
- , —, idiopathic, clinical features, 274
- Thalamus activity in "stupor" in acute meningoencephalitis, 284
- Therapeutics, 5-12, 117-22, 217-22, 311-23
- Thermoreceptors, effect of menthol on, 8
- Thevetidin, pharmacological action on heart, 313
- Thiobarbiturates, hypnotic and convulsant actions, 316
- Thiosemicarbazone alone and with *p*-aminosalicylic acid in pulmonary tuberculosis, 102
- , in pulmonary tuberculosis, 198
- , tuberculosis, toxic effects, 102
- Thiouracil treatment of mice, malignant thyroid tumours after, 276
- Thomsonian system of botanical medicine, 400\*
- "Thorotrast", effects as medium in hepato-splenography, 348
- Thrombin, epidemic of homologous serum hepatitis due to, 95
- Thrombocytopenia, thrombopoiesis in, 214
- Thromboembolism as complication of cortisone and corticotrophin treatment, 187
- Thrombophlebitis and periphlebitis of anterior chest wall, 229
- , recurrent, in obscure malignant tumour of lung, 270
- Thromboplastin, reaction of haemophilic plasma to, 267
- Thrombopoiesis in pernicious anaemia, 267
- Thrombosis, acute coronary, anticoagulant therapy, 59
- , coronary, tromexan treatment, 364
- , insidious, of abdominal aorta, 163
- , leucocyte-platelet, in rheumatic carditis, 229
- , of basilar artery and vascularization of brain stem, 287
- , —, major cerebral arteries, electroencephalogram in, 189
- , spontaneous, of carotid arteries, angiographic diagnosis, 344
- Thrombosis, vascular, and complications, effect of "tromexan" and dicoumarol on, 6
- , venous, deep post-operative, heparin-gelatin-dextrose injection in, 366
- , —, natural history of, 129
- Thumb-sucking and oral structures, study from birth to 14 years of age, 147
- Thymus in myasthenia gravis, pathological findings in, 22
- Thyroid carcinoma, induction in rat by radioactive iodine, 340
- , radioactive iodine treatment, 342
- , —, —, limitations and indications, 177
- , disease, serum creatine levels in, 72
- , extract, effect of prolonged administration, 276
- , function, assessment by radioactive iodine, 374
- , gland pathology in thyrotoxicosis, 277
- , —, thyrotrophin balance in blood of normal and hypothyroid subjects, 276
- , tumours after thiouracil ingestion by mice, 276
- , multinucleated giant cells in, 128
- Thyroiditis, acute, antithyroid drugs in, 73
- , classification, needle biopsy in, 178
- , effect of thyrotrophin on accumulation of radioactive iodine in, 178
- , radioactive iodine studies, 178
- , subacute, treatment, 277
- Thyrototoxicosis, 2-carbethoxythio - 1 - methylglyoxaline in, 73
- , effect of smoking on, 375
- , inhibition by antibiotics in rats, 10
- , muscular wasting with, 72
- , prolonged administration of iodine in cure of, 375
- , propylthiouracil therapy, 72
- , radioactive iodine treatment, 41, 178
- , with diabetes, propylthiouracil in, 52
- Thyrotrophin, effect on accumulation of radioactive iodine in thyroiditis, 178
- , —, release of radioactive iodine from thyroid, 177
- L-Thyroxine, radioactive, localization in neural lobe of pituitary gland, 176
- Tick-borne fever, aureomycin treatment, 201
- Tinea capitis, "asterol" treatment, 180
- , due to *Microsporum audouinii*, podophyllotoxin treatment, 180
- , —, —, spontaneous cure, 75
- , transmission from rabbit to man, clinical and mycological observations, 376
- , versicolor, lipophilic yeast-like organisms in, 180
- Tissue, argyrophilic granules in, changes after excessive exercise, 326
- , connective, regenerating fibres of, alkaline phosphatase associated with, 326
- , deep subcutaneous, comparison of methods of heating, 323
- , epithelial, effect of aminopterin on, 377
- , normal, chemotactic substances in, 223
- , response to injury, effect of corticotrophin on, 174
- Tobacco smoke inhalation and production of experimental peptic ulcer, 17
- , smoking, bronchogenic carcinoma and, 138
- , —, effect on flicker fusion threshold in normal persons, 241
- , —, —, thyrotoxicosis, 375
- Tolazoline in peripheral vascular disease, 217
- Tomography, axial transverse, in surgical thoracic disease, 346
- , of lungs in silicosis, 136
- Toxicosis, septic, in newborn, role of *Bact. coli* and reactivity of host in pathogenesis, 25
- Toxoplasmin sensitivity of English children, 203
- Toxoplasmosis, acute, in children, supronal treatment, 106
- , experimental, chemotherapy, 108
- , familial, in adults, 107
- , in adults, clinical report, 107
- Transfusion, *see* Blood transfusion
- Treatment, medical, early prepayment plan for, 400\*
- Trench fever in Messina, 299
- Treponema* antibodies, development in mice after injection of killed *T. pallidum*, 133
